# Human Papillomavirus (HPV): Empowering Providers to Advocate for Vaccination

## Course Overview

Join Kristin Oliver, MD, MHS, from Mount Sinai, and Quality Insights Practice Transformation Specialists Courtney McCullough, MPH, and Anna Gurdak, MBA, for this 60-minute course on the critical role of HPV vaccination in public health. This session will explore strategies to effectively advocate for patients to receive the HPV vaccine, contributing to the prevention of HPV-related diseases. In addition, it will address common barriers to HPV vaccination, including parental misconceptions, cultural influences, vaccine hesitancy, and logistical obstacles. Participants will gain insights into best practices for overcoming these challenges and increasing vaccine uptake.

This session will also include the sharing of valuable quality improvement resources designed to increase vaccination rates and improve public health outcomes.

## Learning Objectives

- Discuss the impact of HPV-related diseases and cancers and their implications for public health.
- Identify common barriers to HPV vaccination, including misinformation and hesitancy and their influence on vaccination practices.
- Explore effective strategies for patient advocacy and seamless integration of vaccination efforts into daily clinical workflows.
- Leverage key resources to enhance vaccination rates and monitor success.
  - Utilize toolkits, handouts, and technology to streamline vaccination practices.
  - Incorporate feedback to refine strategies and improve outcomes.
  - Strengthen communication with patients and staff to promote a culture of vaccination advocacy.

### QUESTIONS:

If you have questions regarding registration, email [Elise Harry](#) or call **267-453-9169**.
