

Partner with Quality Insights:

The National Cardiovascular Health Program

Partner with Quality Insights to implement and evaluate evidence-based strategies contributing to the prevention and management of cardiovascular disease (CVD) in **populations disproportionately at risk**.

Areas of Focus:

- Blood Pressure (BP) Control
- Cholesterol Management
- Social Determinants of Health
- Clinical and Social Support
- Team-Based Care

We offer services tailored to **YOUR** populations:

- Support accurate reporting and improvement of clinical quality measures
- Optimize electronic health record (EHR) and office workflows
- Provide clinician and staff education
- Identify individual social determinants of health for populations at highest risk of CVD
- Implement team-based care
- Create and enhance community-clinical links
- Promote use of self-measured BP monitoring (SMBP) with clinical support

The Stats in PA:

33.7%

% of PA adults with a diagnosis of high BP in 2021, exceeding the national prevalence of 32.4%¹

1st

In 2021, heart disease was the leading cause of death in PA²
