Utilizing Screen, Test, and Refer to Promote the National Diabetes Prevention Program to Individuals at Risk for Diabetes

*This 60-minute interactive webinar provides an evidence-based review for increasing awareness for screening, testing, and referrals to the **National Diabetes Prevention Program (National DPP)**. This webinar was developed through a joint partnership with the Pennsylvania Department of Health with CDC grant funding. The webinar is appropriate for nurses, physicians, physician assistants, nurse practitioners, and other health care team members.*

Expert Presenters

- Joseph Pinto, Practice Transformation Specialist, Quality Insights
- Debbie Zlomek, RN, MSN, CDCES, BC-ADM, Education Coordinator, Pottstown Medical Specialists, Inc.

Quality Insights and presenters have no identified conflicts of interest.

Learning Objectives

- Describe prevalence of prediabetes and diabetes.
- Identify National DPP benefits.
- Explain the prediabetes Screen/Test/Refer process.
- Develop workflow modifications to implement a referral process for patients at-risk for diabetes.
- Identify in-person and virtual National DPP program options.

Course Requirements

To receive continuing education credit, participants must:

- Participate in the live webinar or view the recording of the 60-minute webinar.
- Complete the evaluation and knowledge post-test. A link to the certificate will be provided upon successful completion of the evaluation & post-test.
